

Hampshire Partnership Board

ADAM

"Adam" is a young man with ambition! But there are so many things in his life holding him back. Teenagers with learning disabilities face all the challenges of anyone else their age. Our play deals with those issues head on. This is a realistic play which explains to the audience, in an informative, dramatic way how Person Centred Planning works in a highly entertaining way and how Person Centred Planning can turn things round for people like Adam !

Hampshire Person Centred Planning Team
